17.15-17.45 Dr. Eline Livémont (Vrije Universiteit Brussel) & Dr. Helga Baert (CurieuCity project) – *CurieuCity – Participative Arts & Science Festival. Best Practices. Lessons (being) learned.*

17.45-18.00 Q & A

18.00 – 18.30 Scientists into the world of theatre with “*Feeling Science: a Theatre Experiment*”

Exploring ArtScience Across Boundaries Symposium Programme

Day two Saturday May 18, 2024

09.30 – 12.30 Session II "Bridging Art, Science, and the extraordinary potential of the Brain"

(Chair: Dr. Naouma Kourti and Dr. Erica Villa)

09.30–10.15 Dr. Todd Siler (ArtScientist) - *Exploring New Ways of Collaborations through ArtScience*

10.15–10.30 Mr. Nikita Kaydanov (EuroBioluminescence ambassador) – *Inner Cosmos*

10.30–10.45 Prof. Dr. Markus Axer, (Forschungszentrum Jülich / Human Brain Project / EBRAINS)

11.45–11.00 Prof. Rafael Morales (Magnamed project) – Curing cancer with the "dance" of tiny magnets

11.00 – 11.30 *Coffee Break*

11.30–11.50 Mr. Sam Nester (ArtScientist) - *The Sound of Science: Perspectives on Art-Science Collaborations*

11.50–12.20 Mr. Claus Lam (ArtScientist) - *Circulating through Materials: How Meaning Matters in Art and Science*

12.20–12.35 Mr. Sven Aerts (European Spas Association) - Healing with Science, Art, and ArtScience

12.50–13.30 **Roundtable & Closing Remarks**

Symposium Theme

The theme of the 2024 Imagine ArtScience Symposium is “Exploring ArtScience across boundaries”, building on the notion that our creative endeavors rely on the continuous interplay of multiple modes of expression and inquiry, from art to science, from culture to technology, from design to innovation, with the ultimate objective of enriching human experience, society, and education through lifelong learning. The Symposium will be articulated over 2 sessions, with invited talks and several selected speakers among the ArtScience community. Break sessions will facilitate interactions, face-to-face discussions, and help launching new interdisciplinary collaborations.
